### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

**Claims 42-48, 50, 52, 54-61, 63, 64, 67-78 and 82 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-9, 13-22, 26-37 and 41 of U.S. Patent No. 6,747,927. Although the conflicting claims are not identical, they are not patentably distinct from each other because in the instant application, the claims are broader than the patent, and included the features of the patent.**

The difference noted between the instant application and the patent, are directed to the device being capable of driving a disc (recited in the application), whereas the patent recites the device is capable of driving a DVD-format disc. Since, the current application is in broader from, it includes the ability of driving the DVD-format disc as recited in the patent, thus not patentable distinct.

***Allowable Subject Matter***

**Claims 42-82 are allowed over the prior art of record.**

**The following is a statement of reasons for the indication of allowable subject matter:**

The prior art of record alone or combination does not teach or suggest the disc drive having the combination of elements with their recited structure, function and arrangement, along with the specific structure, function and arrangement of the determining sections, sending sections and reading sections, as set forth in the claims, and as disclosed in the specification.
